

FARS

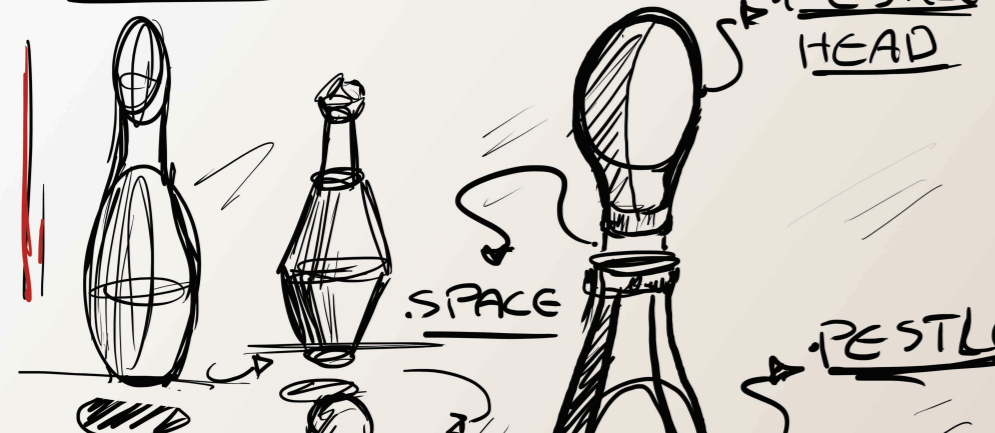

Attempts have also been made to maintain the traditional, long-lasting form of work in the same ease of work, and to pack suitable for Iranian taste or even .for export

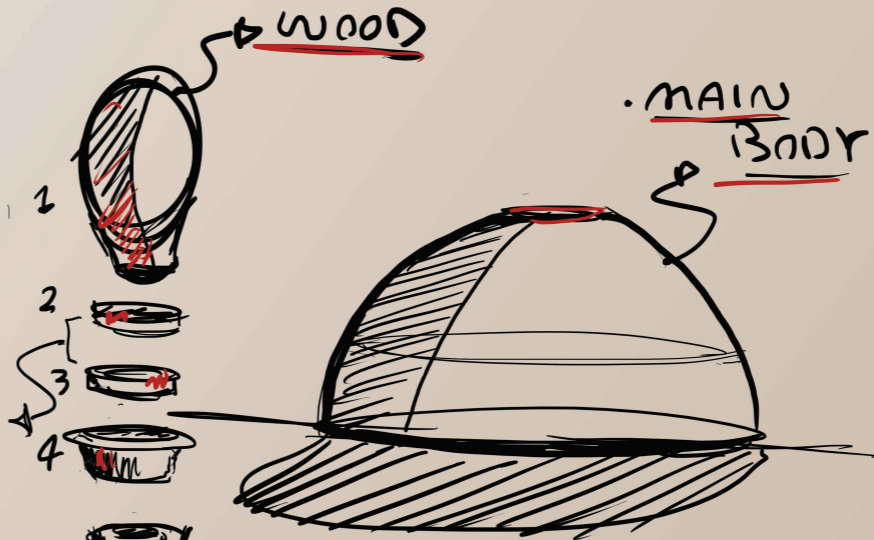

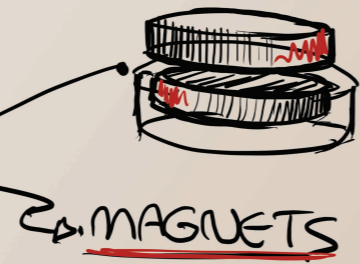

The design of this product has been attempted to integrate packaging and masonry in the best way to promote Iranian culture and art and to facilitate the satisfaction of the needs of the Iranian family, including souring and milling materials such as saffron, honey, cinnamon and ... and use They will be used to prepare .Iranian beverages and meals

PESTLE AND MORTAR

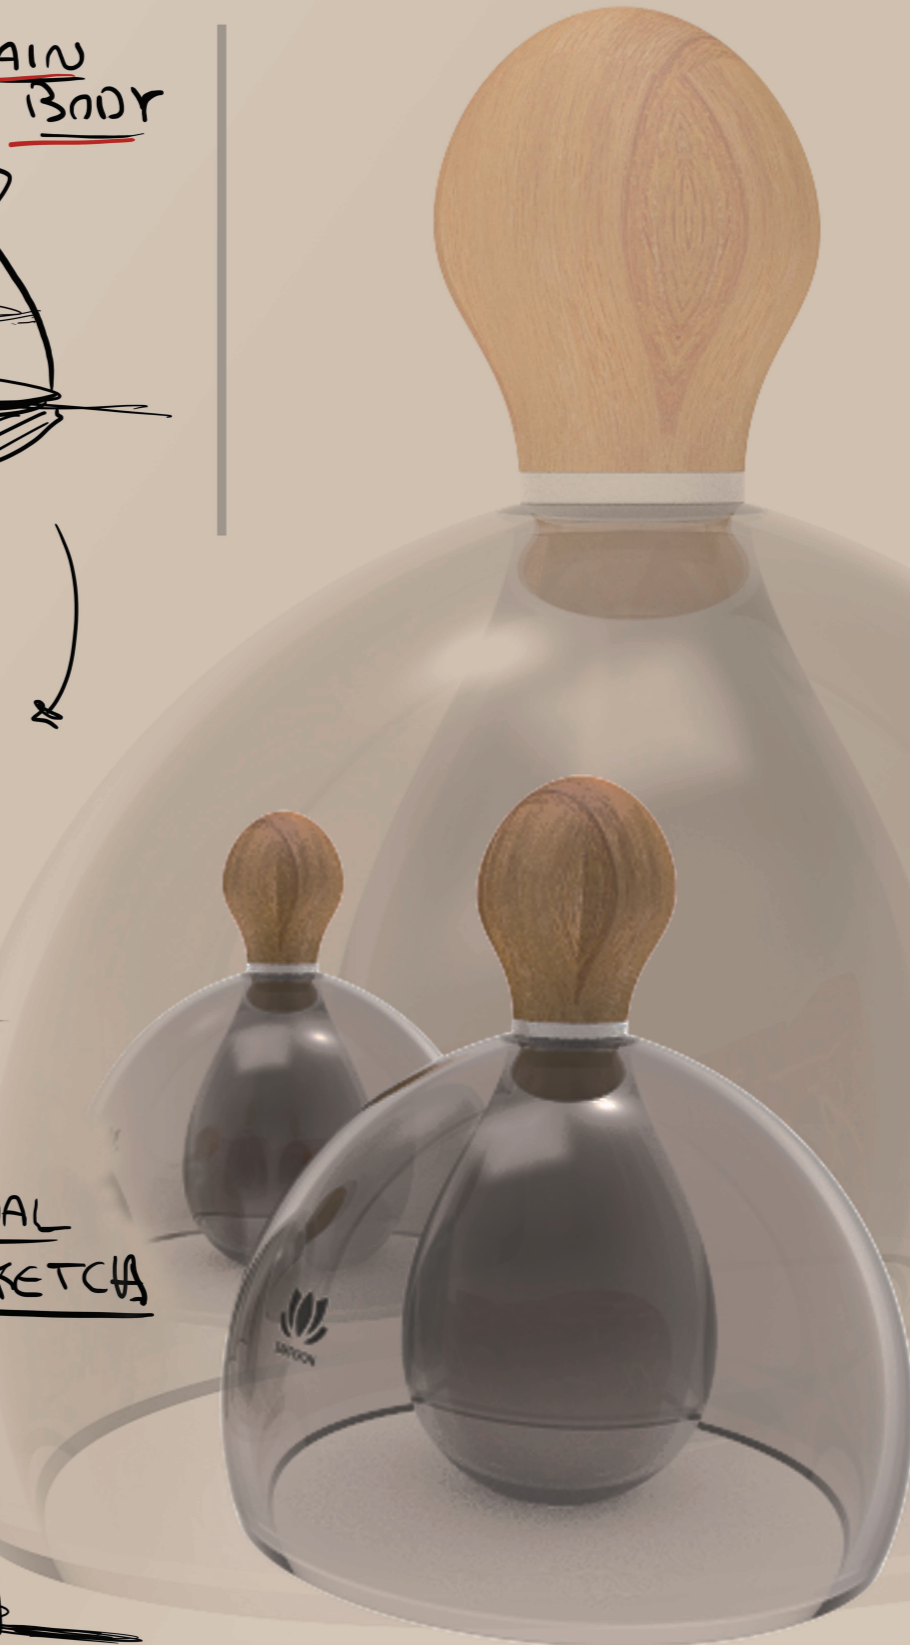

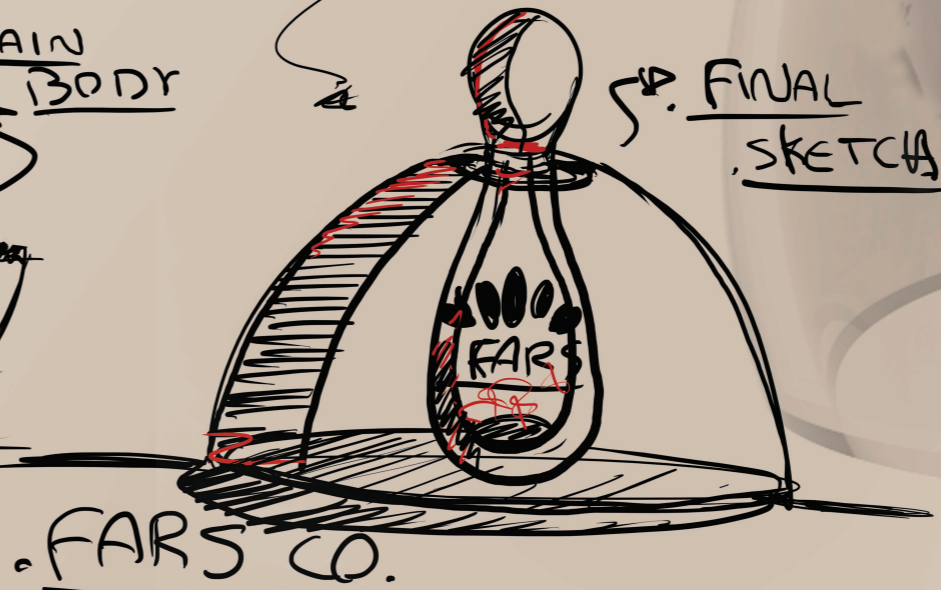

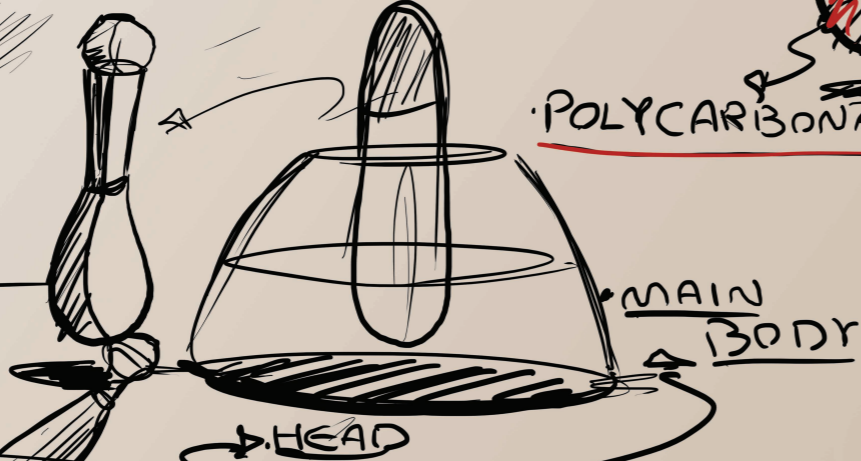

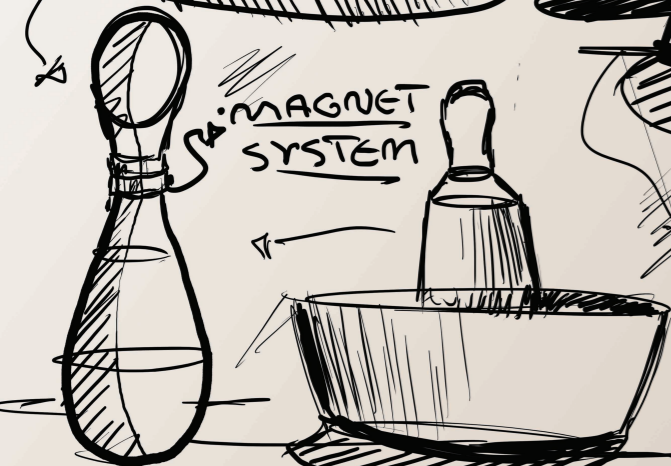

MAIN IDEA

EMPTY SPACE

POLYCARBONATE

How to use the product

First, remove the upper part of the mortar (attached to the lower part of the mortar, which is beneath the bowl) with the magnet

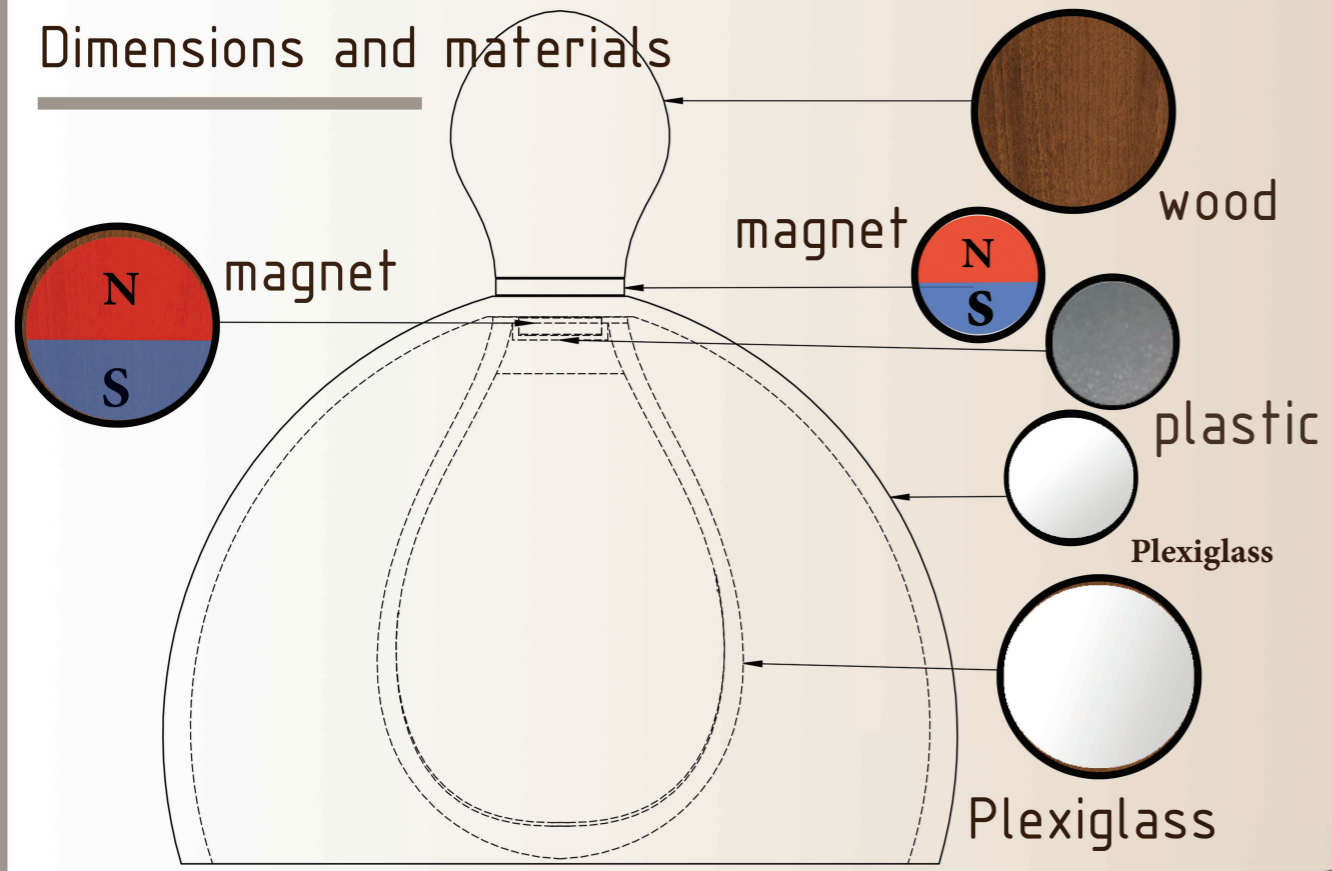

degrees 180 Then turn the bowl

Open the cap from the body and open it

Put the contents inside the mortar (such as saffron, cardamom or ...) into the bowl

After placing the upper part of the mortar on its body, we begin to sneak in the bowl
